Are you looking for a professional qualification which will help you in your career? Do you want a qualification that leads directly to a university degree course?

Information is crucial to running a successful business. Technology now provides a range of information systems, and so a modern manager needs to understand the way they can be used to develop and manage the business.

Our course catalogue offers the most in demand information technology and management skills training and certification programmes in an On.Demand world. Courses are available in a mix of delivery methods including Computer based training-CBT, Instructor-Led Boot Camp Learning, Instructor and student hands-on training guides, Onsite Learning, Virtual e.Classroom Learning (Live, Online), and asynchronous mobile (m-Learning) and e-Learning..

Management of Information Systems Overview

In the rapidly growing IT industry, professionals with the skills to manage all aspects of Information management are in high demand. The Information Management certification recognises professionals who have attained the knowledge and experience to oversee all aspects of information management including initiation, quality, procurement, and communications issues.

We offer focused curriculum and certification preparation for every level and aspect of career and Workforce development; spanning basic HTML to complex enterprise technology requirements.

From self-paced CD/DVD-ROM CBT courses, Student training workbooks, Instructor guides, intense Boot Camps to Finance, Human Resource Management, Retail, Supply-Chain, Logistics, Manufacturing, CRM, Business Intelligence, Data Warehousing, Data Integration, Business Process Management, Project Management, Networking, Security, Java, VOIP and open source classroom courses.

We cover the real-world skills most recognised and valued by employers and businesses.

- Convenient Anytime, Anywhere Training
- Money-back Certification Guarantee*
- 24-hour Online Mentoring from Certified Advisors

- Email Access to IT Courseware Specialists
- Hands-on Interactive Exercises
- Practice Assessment Tests
- Search and Learn Across all Course Material

Management of Information Systems Programme

The Management of Information Systems programme from WebLearning Academy is based on the Association of Business Executives (ABE) curriculum and offers three levels of qualifications in the management of information systems to improve your management knowledge and skills.

The Diploma in Business Management (Management of Information Systems pathway) starts at level 4, and enables you to progress through the Higher Diploma at level 5 up to the Graduate or Graduate Integrated Diploma at level 6.

As one of ABE's 50,000 students you have access to a comprehensive support and information network with both online and published material available. Plus you can be very confident about the quality of the qualification you will receive, as all of ABE's qualifications are accredited by Ofqual, the British government's regulatory authority, as well as equivalent bodies worldwide.

ABE qualifications are very flexible. The optional units enable you to specialise in the areas that particularly interest you. Units can be studied in any order. Several units are common to more than one programme so you can switch between qualifications or easily move on to take a second qualification at the same level.

Management of Information Systems Programme Qualification

Successfully completing this programme and fulfilling the documented experience requirement of the Association of Business Executives (ABE) will make you eligible for the coveted MIS certification. Completion of this course also earns you over 80 Professional Development Units (PDUs).

Diploma (Level 4)

Compulsory units

- Introduction to Business
- Introduction to Quantitative Methods
- Introduction to Business Communication
- Introduction to Management Information Systems

Entry requirements

Open entry, but you must be competent in English (IELTS 5.0 minimum) and Mathematics

Higher Diploma (Level 5)

Compulsory units

- Quantitative Methods for Business Management
- The Business Environment- Financial Accounting
- Marketing Policy, Planning and Communication
- Organisational Behaviour
- Human Resource Management

Optional units (choose two)

- Information Systems Applications for Business
- Information Systems Development
- Managing the Customer Relationship

Entry requirements

One of the following:

- Any ABE Level 4 Diploma or equivalent
- Any Level 3 qualification or equivalent
- 2 years' relevant work experience

And you must be competent in English (IELTS 5.0 minimum) and Mathematics

Graduate Diploma (Level 6)

Compulsory units

- Corporate Strategy and Planning
- Managing in Organisations
- International Business Case Study
- Project Management
- Information Systems for Strategic Management

Entry requirements

One of the following:

- Any ABE Level 5 Diploma or equivalent qualification
- A degree or equivalent
- And you must be competent in English (IELTS 5.0 minimum) and Mathematics

Graduate Integrated Diploma (Level 6)

Compulsory Units

- Quantitative Methods for Business Management
- The Business Environment
- Financial Accounting- Marketing Policy, Planning and Communication

- Organisational Behaviour
- Human Resource Management
- Corporate Strategy and Planning
- Managing in Organisations
- International Business Case Study
- Project Management
- Information Systems for Strategic Management

Optional units (Choose two)

- Information Systems Applications for Business
- Information Systems Development
- Managing the Customer Relationship

Entry requirements

One of the following:

- Any ABE Level 4 Diploma or equivalent
- Any Level 3 qualification or equivalent
- 2 years' relevant work experience
- And you must be competent in English (IELTS 5.0 minimum) and Mathematics

What do the levels mean?

The levels refer to the 'level of learning' required to complete the qualification. Qualifications at the same level are therefore broadly similar (or equivalent) in the level of learning required.

QCF Level - Other qualifications at the same level

Level 3 - UK 'A' level, BTEC National Certificate

Level 4 - BTEC Professional Diploma

Level 5 - UK Foundation Degree, HND

Level 6 - Bachelors Degree, Graduate Diploma

Level 7 - Masters Degree, Postgraduate Diploma

What is a Pathway?

ABE's level 4, 5 and 6 Diplomas in Business Management are divided into three separate 'Pathways'. A Pathway is a combination of units (with some options within them) which enable you to specialise in a particular area.

The three Pathways are Business Management, Financial Management and the Management of Information Systems.

All successful students will receive a Diploma in Business Management (at the appropriate level). If you take the Financial Management or Management of Information Systems Pathways the relevant Pathway will be shown on your award certificate.

This will be especially useful if you are considering a career in, or planning to study further in, either of these Pathway areas.

The progression route with WebLearning Academy and ABE qualifications
