What do the levels mean?

The levels refer to the 'level of learning' required to complete the qualification. Qualifications at the same level are therefore broadly similar (or equivalent) in the level of learning required.

QCF Level - Other qualifications at the same level

Level 3 - UK 'A' level, BTEC National Certificate

Level 4 - BTEC Professional Diploma

Level 5 - UK Foundation Degree, HND

Level 6 - Bachelors Degree, Graduate Diploma

Level 7 - Masters Degree, Postgraduate Diploma

What is a Pathway?

ABE's level 4, 5 and 6 Diplomas in Business Management are divided into three separate 'Pathways'. A Pathway is a combination of units (with some options within them) which enable you to specialise in a particular area.

The three Pathways are Business Management, Financial Management and the Management of Information Systems.

All successful students will receive a Diploma in Business Management (at the appropriate level). If you take the Financial Management or Management of Information Systems Pathways the relevant Pathway will be shown on your award certificate.

This will be especially useful if you are considering a career in, or planning to study further in, either of these Pathway areas.
