Courses designed to develop knowledge and skills needed for modern careers

WebLearning offers Career Enabler for Business and IT training encompassing Human Resource Management, Financial Management, Retail, Banking, Oracle, Microsoft and IBM technology courses.

WebLearning Career Enabler courses are designed to provide students with knowledge and skills in areas of business, accounting and computer science that are universally in high demand across industry and are suitable for professional, technical and vocational careers.

Career Enabler courses have been specifically designed for beginners who would like to acquire new skills from scratch and gradually achieve expert level knowledge in one go and are customised to impart thorough knowledge of a single subject area by transforming a beginner into an expert in just a matter of few weeks.

For those thinking of just starting out in a particular technology or changing career paths towards a new, popular technology, WebLearning Career Enabler Training offers the best solution.

Current Career Enabler for IT includes Career Enabler™ Microsoft training courses, Career Enabler™ IBM training courses and Career Enabler™ Oracle training courses.

Current Career Enabler for Business and Finance includes Career Enabler™ Human Resource Management training courses, Career Enabler™ Financial Management training courses and Career Enabler™ Business training courses.

Career Enabler Overview

In the rapidly growing IT industry, professionals with the skills to manage all aspects of Information management are in high demand. The Career Enabler certification recognises professionals who have attained the knowledge and experience to oversee all aspects of information management including initiation, quality, procurement, and communications issues.

We offer focused curriculum and certification preparation for every level and aspect of career and Workforce development; spanning basic HTML to complex enterprise technology requirements.

From self-paced CD/DVD-ROM CBT courses, Student training workbooks, Instructor guides, intense Boot Camps to Finance, Human Resource Management, Retail, Supply-Chain, Logistics, Manufacturing, CRM, Business Intelligence, Data Warehousing, Data Integration, Business Process Management, Project Management, Networking, Security, Java, VOIP and open source classroom courses.

We cover the real-world skills most recognised and valued by employers and businesses.

- Convenient Anytime, Anywhere Training
- Money-back Certification Guarantee*
- 24-hour Online Mentoring From Certified Advisors
- Email Access to IT Courseware Specialists
- Hands-on Interactive Exercises
- Practice Assessment Tests
- Search and Learn Across all Course Material

Career Enabler Programme

The Career Enabler programme from WebLearning Academy is based on the Association of Business Executives (ABE) and WebLearning Academy curriculum and offers three levels of qualifications in the management of information systems to improve your management knowledge and skills.

The Association of Business Executives (ABE) - Information Systems Management Programme component of the Career Enabler for I.T and Business is optional.

The Diploma in Business Management (Management of Information Systems pathway) starts at level 4, and enables you to progress through the Higher Diploma at level 5 up to the Graduate or Graduate Integrated Diploma at level 6.

As one of ABE's 50,000 students you have access to a comprehensive support and information network with both online and published material available. Plus you can be very confident about the quality of the qualification you will receive, as all of ABE's qualifications are accredited by Ofqual, the British government's regulatory authority, as well as equivalent bodies worldwide.

ABE qualifications are very flexible. The optional units enable you to specialise in the areas that particularly interest you. Units can be studied in any order. Several units are common to more than one programme so you can switch between qualifications or easily move on to take a second qualification at the same level.

Information Systems Management Programme

The Association of Business Executives (ABE) - Information Systems Management Programme component of the Career Enabler for I.T and Business is optional.

Diploma (Level 4)

Enhance Your Credentials with Official Microsoft Certifications

Career Enabler for SQL Server Business Intelligence

Career Enabler for SQL Server Business Intelligence course is a Career Enabler series course from WebLearning Solutions that aims to cover all aspects of Business Intelligence using the Microsoft suite of products. For analysing and reporting tasks using Microsoft BI tools and techniques, it is imperative to first have good understanding of SQL Server 2012 databases.

Therefore, this special course series begins with providing in-depth knowledge of administering SQL databases, before moving on to the BI aspect.

Career Enabler for SQL Server Business Intelligence training program is meant for professionals who would like to gain core knowledge of performing business intelligence tasks in their organizations using Microsoft SQL Server 2014.

The course is designed specifically for Business Intelligence professionals, database professionals and BI Architects who wish to gain skills in designing BI solutions for an enterprise environment. The skills covered in this course account for a professional's ability to design a complete BI infrastructure including its interactions to different data systems.

Career Enabler for Microsoft Database Administrator

Career Enabler for SQL Server Business Intelligence course is a Career Enabler series course from WebLearning Solutions that aims to cover all aspects of Database Administration using the Microsoft suite of products.

This course is ideal for database professionals who design, create and manage databases at organisation levels and ensure high availability of data.

course is designed specifically for Business Intelligence professionals, database professionals and BI Architects who wish to gain skills in designing BI and database solutions for an enterprise environment.

Career Enabler for Microsoft Database Developer

Career Enabler for SQL Server Business Intelligence course is a Career Enabler series course from WebLearning Solutions that aims to cover all aspects of Database development using the Microsoft suite of products.

For analysis and database development tasks using Microsoft tools and techniques, it is imperative to first have good understanding of Microsoft database modelling and analysis.

Therefore, this special course series begins with providing in-depth knowledge of modelling and analysing SQL databases, before moving on to the development aspect.

This course is ideal for database professionals who design and create databases at organisation levels and ensure high availability of data.

The course is designed specifically for database professionals and Architects who wish to gain skills in designing database solutions for an enterprise environment.

Career Enabler: for Weblogic Server 11g

Career Enabler: Weblogic 11g Career Enabler Training & Certification Courses

This course will teach Web administrators various techniques for configuring and installing WebLogic Server version 11g. Students will get to upgrade basic administrative knowledge and experience.

This course will teach web administrators how to set out Java EE applications to WebLogic Server version 11g with the use of Administration Console and scripting tools like WLST. Students will also be able to simplify deployment and considerably improve time-to-market.

After completing this course, students will be able to increase the performance and scalability of your organization's applications and services. Audience: This course is ideal for Sales Consultants, Java EE Developers, Web Administrators, and J2EE Developers.

Oracle WebLogic Server 11g: Administration Essentials

Oracle WebLogic Server 11g: Advanced Administration

Oracle WebLogic Server 11g: Diagnostics and Troubleshooting

Oracle WebLogic Server 11g: Monitor and Tune Performance

Career Enabler for Weblogic Server 12c

This course will teach Web administrators various techniques for configuring and installing WebLogic Server version 12c. Students will get to upgrade basic administrative knowledge and experience.

This course will teach web administrators how to set out Java EE applications to WebLogic Server version 12c with the use of Administration Console and scripting tools like WLST.

Students will also be able to simplify deployment and considerably improve time-to-market. After completing this course, students will be able to increase the performance and scalability of your organization's applications and services. Audience: This course is ideal for Sales Consultants, Java EE Developers, Web Administrators, and J2EE Developers.

Oracle WebLogic Server 12c: Administration I - 1Z0-133

Oracle WebLogic Server 12c: Advanced Administrator II - 1Z0-134

Oracle WebLogic Server 12c Essentials - 1Z0-599

WebLearning Career Enabler for Oracle Fusion Middleware and Cloud Oracle Fusion Middleware and WebLogic Certified Associate and Implementation Specialist

The WebLearning Oracle Fusion Middleware and Cloud Academy Certified Associate and Implementation Specialist courses are designed to provide students with foundational knowledge and skills in areas of computer science that are universally in high demand across computing jobs.

The Oracle Fusion Middleware and Cloud Certification courses are designed to develop knowledge and skills needed for modern careers.

Oracle Fusion Middleware and Cloud Certified Associate and Implementation Specialist Certification courses:

Oracle SOA Suite 11g Certified Implementation Essentials - 1Z0-478

Oracle WebLogic Server 11g: System Administration I Certified Associate and Specialist - 1Z0-102

Oracle WebLogic Server 12c: Administration I Certified Implementation - 1Z0-133

Oracle WebLogic Server 12c: Advanced Administrator II Certified Implementation - 1Z0-134

Enhance your Career, Status and Income with the Oracle Business Intelligence Foundation Suite Certification courses. Earn minimum £50K with your Oracle Analytics, BI and Data Warehousing Skills

Career Enabler: Mastering Apache Hadoop

Career Enabler: Mastering Apache Hadoop Training & Certification Courses

Hadoop Career Enabler is for professionals who are looking for building strong career path on Apache Hadoop and are new entrants to this technology.

This course will help them to expertise in end to end solutions of Hadoop modules. This course will cover: Start with Apache Hadoop, Master Hadoop Administration, and Hadoop Developer.

This course is best suited for business users, developers, Windows teams, Java developers, data analysts, administrators and data scientists.

Career Enabler: Data Science

Career Enabler: Data Science Career Enabler Training & Certification Courses

This Data Science course is designed for those who are aspiring to be Data scientists. This course covers all the pre-requisites and Data science concepts along with hands-on labs. Basics to advanced level concepts are taught which covers predictive analysis, data modeling along with Hadoop ecosystem.

This course also covers all pre-requisite trainings needed for Data Science. After this training participants can become Data scientists and also will be expert on data visualizations and decision making using data analytics.

WebLearning Career Enabler for ERP

WebLearning Career Enabler courseware is modular, enabling you to incorporate entire WebLearning Career Enabler courses or individual lessons or topics into existing curriculum and programmes of study. Our courseware is designed to be delivered as part of a vocational, competency based mode of study; has educational learning objectives, is mapped and aligned to many relevant standards and exams globally.

- PeopleSoft FSCM 9.1 Receivables

Enhance your Career, Status and Income with the EBS R12.1 and PeopleSoft 9.1 Certified Implementation Specialist courses. Earn minimum £50K with your E-Business Suite, PeopleSoft and ERP Skills.

What do the levels mean?

The levels refer to the 'level of learning' required to complete the qualification. Qualifications at the same level are therefore broadly similar (or equivalent) in the level of learning required.

QCF Level - Other qualifications at the same level

Level 3 - UK 'A' level, BTEC National Certificate

Level 4 - BTEC Professional Diploma

Level 5 - UK Foundation Degree, HND

Level 6 - Bachelors Degree, Graduate Diploma

Level 7 - Masters Degree, Postgraduate Diploma

What is a Pathway?

ABE's level 4, 5 and 6 Diplomas in Business Management are divided into three separate 'Pathways'. A Pathway is a combination of units (with some options within them) which enable you to specialise in a particular area.

The three Pathways are Business Management, Financial Management and the Management of Information Systems.

All successful students will receive a Diploma in Business Management (at the appropriate level). If you take the Financial Management or Management of Information Systems Pathways the relevant Pathway will be shown on your award certificate.

This will be especially useful if you are considering a career in, or planning to study further in, either of these Pathway areas.

The progression route with WebLearning Career Enabler and ABE qualifications
